# Globalscape EFT Arcus (MFTaaS)

## Globalscape EFT™ With The Power of The Cloud

Globalscape EFT™ Arcus (MFTaaS) is a cloud-based Managed File Transfer (MFT) service that provides the compliance and efficiency of MFT without the overhead of an on-premises solution. With EFT™ Arcus you can have the core features of MFT, including secure access protocols, data visibility, governance, and automation with the reliability, scalability, and accessibility of the cloud.

Increase your operational efficiency and improve data security with:

- Fully redundant setup helps achieve high levels of availability
- Business continuity to automate recovery in case of a disaster
- Subscription model eliminates large up-front capital expenditures
- Globalscape managed upgrades that don't require your IT resources
- Secure single-tenant deployment, so you control access to your data

## Features At-A-Glance

With EFT™ Arcus, you get all the benefits of Globalscape EFT, minus the uncertainty of managing cloud infrastructure or installing software on-premises.

## Globalscape EFT Features:

**Secure Protocols:**
- SFTP, FTPS, HTTPS

**Flexible Authentication:**
- Built-in, LDAP

**Powerful Security:**
- Encrypted data at rest

**Workflow Automation:**
- React to stimuli
- Evaluate conditions
- Perform actions

**Optional Add-on Modules:**
- B2B transfers over AS2
- Auth: SAML (Web SSO)
- Encryption: PGP
- Collaboration: Send and share files
- Audit to database
- Centrally control remote agents
- Advanced workflows

### KEY RESULTS

- **Reduce IT operational** costs usually associated with on-site hardware, software maintenance, and personnel costs

- **Convenient tier** options to meet the needs of your organization.

- **Help facilitate compliance requirements** including EU-US Privacy Shield, GDPR, CPAA, PCI DSS, HIPAA, SOC 1/2/3, CSA Star, FedRAMP, FIPS 140-2, as well as ISO 9001/27001, 27017/27018. Globalscape EFT Arcus is also SOC 2 Type 1 Compliant.

- **Streamlined business processes** with advanced automation capabilities

- **Deployable worldwide** in the Azure region of your choice
